PROPOSED AMENDMENT TO CANYON LAKE PROPERTY OWNERS ASSOCIATION TRACT DECLARATIONS OF RESTRICTIONS

Increase Default Fence-Height Provision in Tract Declarations (CC&Rs). The default maximum height limit for fences shall be increased to six (6) feet. (This amendment does not modify more specific CC&R provisions, e.g., those that apply to parts of lots contiguous to the lake or golf course.)

(See, for example, paragraph 7(j) of Declaration of Restrictions for Tract 3716 which currently provides at the last sentence thereof: "Any fence that is permitted within the Subdivision and is not subject to the height limitation set out [elsewhere] may have a height not in excess of five (5) feet." Pursuant to the proposed amendment, ~~five (5)~~ will be deleted and replaced with *six (6)* if the amendment is approved.)
