

### **It's time to determine eligibility for voting**

Canyon Lake Property Owners are reminded they have until Monday, March 2, to clear their accounts, pay off fines and catch up on their POA dues if they want to vote for new Directors at the General Meeting in May. Only “Members in Good Standing” will be allowed to vote.

Getting accounts cleared by March 2 will give the Member Services Department time to close escrows and update accounts in time for the “Record Date for Notice and Voter Eligibility” on March 20.

In order to qualify as a Member in Good Standing, members must not have any of the following charges or violations against their properties (including properties they lease or rent to other parties):

1. Unpaid fines.
2. Past due assessment(s), late charges, installment charges, interest or related charges.
3. CC&R, ACC and dock violations, which have gone through due process and remain in a state of non-compliance.

Failure to maintain Membership in Good Standing may result in suspension of voting rights, as well as suspension of common area recreational amenity use privileges, including revocation of boating privileges and use of the Golf Course or Equestrian Center.

It's also important for members to update their records with any changes to the Prime Member status, such as death of the prime member, marital status, etc. This affects voting privileges since only Prime Members have voting privileges, not sub-associates. Member Services Manager Lynn Jensen says her department can assist those who may have further questions about these matters.
