

Tuesday Work Group

The TWG completed their twenty-eighth year of continued improvements and maintenance on the Canyon Lake Golf Course. The major projects for 2007-2008 included:

Widening the cart path behind #9 green providing a turnout area.

Because of the transition of maintenance companies (IGM to Crest), we delayed some projects such as reworking and widening #3 and #7 tee boxes and replacing the Logo area below hole #14. These projects should be completed in 2008/2009.

Nonetheless, our group of about 60 volunteers completed numerous tasks such as sanding the fairways, trimming plants and hedges, repairing cart paths, installing curbs, planting flowers, cutting trees into firewood, painting yardage markers, and even welding projects like benches or hand railings.

We lost two very significant volunteers this year Amous Cann and Harvey Malcolmson, they both worked back when TWG was formed.

We have almost a completely new board for 2008-2009 Rolly Bitterman, Dick Blanks, Chuck Furry, Larry Mensch, John Petersen and Andy Saldate.

If you are interested in joining our group, we will be back to work on October 7, 2008 Tuesday morning at 6:30. Come join us for a donut and a cup of coffee, and then a little rewarding work that will make you proud.

Ken Mathes
Chairman
