- Current Board President
- Full Time Resident
- Retired HVAC Contractor, Inspector and Manager
- Outdoor Enthusiast
- Community Group Participant
- Committed to project completion, improved amenities and communication to property owners.

In January of 2012, I purchased my home in Canyon Lake. Relocating to Canyon Lake, from coastal San Pedro, has been the ideal choice for my family and me.

I was drawn to our community because of the many amenities offered. As a fulltime Canyon Lake resident, I enjoy boating on the lake with my children and grandchildren. Like most residents, my first purchase was a golf cart. The family certainly enjoys cruising around our community, visiting our many playgrounds, parks and beaches. One of our many assets that we enjoy are the Clubs that provide events for every age group. Without the spirit of volunteering we as a community would not be able to afford to host every event.

Of greatest concern is Security and Communication. The word Security has been misinterpreted to mean that community patrol will solve all issues. The City of Canyon Lake provides for personal security for individuals and their property through the contract with Riverside Sheriff's Department. Community Patrol is contracted to enforce our Rules and Regulations and police the common areas.

Communication has been difficult. I venture to guess that 95% of our members have at least one email address, yet not all have registered with the POA to receive notifications. Members would have access to the website, weekly newsletter, alerts about road closures whether storm or accident related.

My objective is to continue as your Board Member. We five members of the board (Dale, Phil, Tom, Jim and myself) have accomplished numerous items on the to do list we created two years ago with many others to be accomplished. I am looking forward to meeting and coordinating with the City of Canyon Lake with quarterly meetings, increasing member participation through email communication, and listening to member suggestions to accomplish these goals. Every Regular Board Meeting has time allocated for members to speak about their concerns.
