

# CANYON LAKE

PROPERTY OWNERS ASSOCIATION

## EASTPORT BLOCK WALL

### Project Scope

Jun. 2019 - Sept. 2019

The scope of this project includes constructing approximately 686 linear feet of reinforced 8 foot concrete block wall along Goetz Road. Traffic is not anticipated to be affected during this project.

### Project Details

The Canyon Lake POA has planned to build a block wall along Goetz Road for several years. This wall will update the appearance of the east side of the community so that it is more aesthetically in line with our neighboring communities, which will help maintain property values.

Additionally, it will provide much more security and better sound attenuation for nearby residents. The wall will be tan split faced on both sides, and will tie into the existing masonry wall at East Gate.

The wall will also have a waterproofing and anti-graffiti application applied.

### Project Funding

**Board Review Date:**  
April 2, 2019

**Approved Amount:**  
\$270,725.81

**Fund:**  
Capital Improvement

**Approved Contractor:**  
Sudweeks Construction
