

Pavement Project Fact Sheet

Project Description

In 2012-13, the Canyon Lake POA entered into a \$7,800,000 paving project which involved the majority of the roads within the community. That project did not include resurfacing any of the 15 parking lots within the community, Happy Camp, or Canyon Lake Drive North, east of Vacation Drive. Happy Camp was completely repaved during the Campground Renovation Project. However, the rest of these areas are badly in need of renovation, especially the Lodge and Country Club parking lots. The Lodge project will feature a new concrete ADA ramp and staircase down to the rental docks along with a new walking pathway, new retaining walls, planters, and additional parking spaces. In 2016, Willdan Engineering was contracted to put together a set of bid documents for these remaining areas. They were tasked with evaluating each area for ADA compliance, and possible expansion and reconfiguration in order to create the maximum available parking spaces in each area. Further, they were asked to evaluate each area for effective drainage and to incorporate other features suggested by the community members and staff.

Affected Locations

Blue Bird Hall

Canyon Lake Drive North
(between Vacation Drive & Goetz Road)

Canyon Lake Golf & Country Club

Diamond Point Park

Eastport Park

Equestrian Center Driveway Entrance

Gault Field

Holiday Harbor Park

Indian Beach

Canyon Lake Lodge

Moonstone Beach,
North Ski East & West

Operations Yard

Sierra Park

Senior Center

Project Status & Funding

Project Status

The Canyon Lake POA is finalizing the vendor contract. The project will be split up into multiple phases. The first phase will include the Canyon Lake Golf & Country Club parking lot, and is anticipated to begin in mid-October.

Project Duration

This project is expected to be completed within 12 months.

Project Funding

Board Approval Date: August 6, 2019

Fund: Road Reserve Fund

Approved Amount: \$3,425,000
